### PROFILE

Resourceful Software Quality Assurance Engineer with 3+ years of experience handling complete review processes. Skilled in API testing, performance testing, and automation using tools such as Cucumber BDD with Selenium Java, JMeter, and Playwright. Experienced in RPA tools like UiPath and managing tasks and bugs in Azure environments. Adept at working in Agile Software Development environments, ensuring application effectiveness and actively resolving technical complications during QA testing.

### WORK EXPERIENCE

#### Hydrus Digital BD Pvt Limited

July 2023 - Present

##### Quality Automation Engineer

- Implemented Cucumber BDD with Selenium Java for API testing and frontend/behavior testing.
- Conducted performance testing using JMeter to assess system endurance under load.
- Developed and executed automated test scripts for software maintenance.
- Utilized UiPath for robotic process automation (RPA) and streamlined task management.
- Registered and tracked bugs using Azure, improving task resolution efficiency.
- Collaborated with cross-functional teams to resolve technical issues during testing.

#### Divine IT Limited

April-2021 - June-2023

##### Quality Assurance Engineer

- Resolved technical issues and forecasted troubleshooting complications during software trials.
- Performed functional and regression testing for various ERP systems including Dealer Management, Human Capital, Supply Chain, and Sales and Distribution.
- Developed and executed QA test cases, scripts, and procedures for automated software maintenance.
- Conducted performance and load testing using Apache JMeter.
- Assessed application patches and updates at different stages to ensure quality.

### CERTIFICATIONS

- JMeter:** Performance and Load Testing
- Postman:** API Testing
